Notes to Condensed Consolidated Interim Financial Statements

For the three months ended March 31, 2021 and 2020 (Unaudited)

(amounts expressed in United States dollars, except per share amounts and where indicated)

1 Nature of operations

Nature of operations

Ridgeline Minerals Corp. together with its subsidiary (collectively referred to as the "Company" or "Ridgeline"), is focused on the exploration of mineral property interests in the state of Nevada, United States.

On August 17, 2020, the Company completed an initial public offering ("IPO") and the Company's common shares commenced trading on the TSX Venture Exchange (the "TSX-V") under the symbol "RDG". The Company was incorporated on March 18, 2019 in British Columbia, Canada. The Company's registered office is at 355-1632 Dickson Avenue, Kelowna, BC, V1Y 7T2, Canada.

All amounts are expressed in United States dollars, except for certain amounts denoted in Canadian dollars ("C\$").

The Company has not yet determined whether its exploration and evaluation assets contain mineral reserves that are economically recoverable. The recoverability of the amounts shown for exploration and evaluation assets is dependent upon the existence of economically recoverable reserves, the ability of the Company to obtain necessary financing to complete the development of those reserves and upon future profitable production. To date, the Company has not earned any revenues and is considered to be in the exploration stage.

Going concern

These condensed consolidated interim financial statements have been prepared on the basis of accounting principles applicable to a going concern, which assumes that the Company will continue in operation for the foreseeable future and will be able to realize its assets and discharge its liabilities in the normal course of operations.

The Company has not generated revenues from its operations to date. As at March 31, 2021, the Company has accumulated net losses of \$1,773,758 since inception and has working capital of \$2,331,775. The operations of the Company have primarily been funded by the issuance of common shares. These condensed consolidated interim financial statements do not include any adjustments relating to the recoverability and classification of recorded asset amounts and classification of liabilities that might be necessary should the Company be unable to continue in existence. Management estimates its current working capital will be sufficient to fund its current level of activities for the next twelve months.

If the going concern assumption was not appropriate for these condensed consolidated interim financial statements, then adjustments may be necessary to the carrying values of assets and liabilities, the reported expenses and the statement of financial position classifications used. Such adjustments could be material.

2 Basis of presentation

The Company prepares its condensed consolidated interim financial statements in accordance with International Accounting Standards 34, Interim Financial Reporting ("IAS 34"), under International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB") and interpretation of the International Reporting Interpretations Committee ("IFRIC"). These should be read in conjunction with the Company's annual audited consolidated financial statements as at and for the year ended December 31, 2020 ("annual financial statements"). The accounting policies and critical estimates and judgements applied by the Company in these condensed consolidated interim financial statements are the same as those applied in the Company's annual financial statements, unless otherwise stated.

These condensed consolidated interim financial statements of the Company have been prepared on an accrual basis and are based on historical costs, except for financial instruments measured at fair value or amortized cost.

The Board of Directors of the Company approved these condensed consolidated interim financial statements and authorized them for issue on May 6, 2021.

Notes to Condensed Consolidated Interim Financial Statements

For the three months ended March 31, 2021 and 2020 (Unaudited)

(amounts expressed in United States dollars, except per share amounts and where indicated)

Basis of consolidation

These condensed consolidated interim financial statements include the accounts of the Company and its wholly owned subsidiary, Ridgeline Minerals Corporation ("Ridgeline NV"), from its incorporation on March 18, 2019. All significant intercompany accounts and transactions between the Company and its subsidiary have been eliminated upon consolidation.

3 Exploration and evaluation assets

Title to exploration and evaluation assets involves certain inherent risks due to the difficulties of determining the validity of certain claims as well as the potential for problems arising from the frequently ambiguous conveyancing history characteristics of many mineral properties. The Company has investigated title to its mineral properties and, to the best of its knowledge, titles to the mineral property assets remains in good standing.

a) Carlin-East Project, Nevada, United States

Carlin-East (the "Carlin-East Project"), is a Carlin-type gold exploration project located within the prolific Carlin Trend, a 200 kilometre ("km") (125 mile) long, north-northwest alignment of predominantly carbonate hosted gold deposits located in northeastern Nevada. The 35 km² property straddles the Eureka and Elko County lines and is comprised of 427 contiguous Bureau of Land Management ("BLM") lode claims totaling 8,628 acres of surface and mineral rights on-trend of the currently producing Leeville-Turf deposit, which is owned by Nevada Gold Mines ("NGM"), a joint venture between Barrick Gold Corp and Newmont Corp.

On April 10, 2019, the Company entered into the Carlin-East Option Agreement to acquire a 100% interest in 243 unpatented claims, which are part of the Carlin-East property comprised of an aggregate of 427 contiguous unpatented mining claims. On September 11, 2020, the Company fulfilled its obligations and acquired its 100% interest in the Carlin-East Project.

The Carlin-East Project is subject to a 3.25% production royalty and annual advance minimum royalty ("AMR") payments until commercial production is announced. The Company can purchase up to 1% of the production royalty (leaving 2.25%) for \$3,000,000 in the first eight years of the Carlin-East Option Agreement. All AMR payments will be offset against 70% of the production royalty payments as they become due.

The Carlin-East Option Agreement has an underlying term of 99 years unless sooner terminated or the option is exercised, with AMR payments as follows: \$10,000 on or before August 8, 2018 (paid); \$10,000 on or before August 8, 2019 (paid); \$20,000 on or before August 8, 2020 (paid); \$30,000 on or before August 8, 2021; \$40,000 on or before August 8, 2022; \$60,000 on or before August 8, 2023; \$80,000 on or before August 8, 2024 and \$100,000 per year on the eighth anniversary and thereafter. These AMR's will cease upon commencement of commercial production. The underlying option to acquire a 100% interest in the Carlin-East Project pursuant to the Lease and Option Agreement can be exercised prior to commercial production for \$1,000,000 (the "Purchase Price").

b) Bell Creek Property, Nevada, United States

Bell Creek (the "Bell Creek Project") is a Carlin-Type exploration project located directly west of the original Carlin-East claims and adjacent to NGM's Goldstrike, Meikle-Rodeo and Ren-Banshee deposits on the western edge of Little Boulder Basin. The property has seen limited historic exploration and is comprised of 1,300 acres of semi-contiguous private mineral rights totaling 5 km².

On February 25, 2020, the Company entered into the Bell Creek Mining Lease with Marvel-Jenkins Ranch, LLC ("Marvel") and Marvel Minerals, LLC (together with Marvel, the "Lessor") to lease certain mineral rights in fee lands located in Elko County, Nevada (the "Bell Creek Property"). The Bell Creek Property is part of the Carlin-East Project.

The primary term of the Bell Creek Mining Lease will be 10 years from the effective date (the "Bell Creek Primary Term"), during which Ridgeline NV has an option and right to: (a) purchase all of the Lessor's right, title and interest in the Bell Creek Property for a purchase price of \$10,000,000, subject to the Lessor's reservation of a production royalty of 1.5% of the net smelter returns ("NSR") from the production of valuable minerals (the "Bell Creek Option to Purchase"); or (b) extend the Bell Creek Mining Lease for an additional 15 years (the "Bell Creek Option to Extend Lease") for a payment of \$100,000.

Notes to Condensed Consolidated Interim Financial Statements

For the three months ended March 31, 2021 and 2020 (Unaudited)

(amounts expressed in United States dollars, except per share amounts and where indicated)

The Bell Creek Option to Purchase and the Bell Creek Option to Extend Lease are exercisable up to 90 days prior to the expiration of the Bell Creek Primary Term. Thereafter Ridgeline has the option to further extend the Bell Creek Mining Lease for additional one-year periods for certain cash payments.

The Company must incur \$250,000 of exploration costs during the first five years of the Bell Creek Mining Lease. The Lessor will retain a 3% NSR production royalty on the Bell Creek Property during the term of the Bell Creek Mining Lease from the sale of any valuable minerals extracted, produced and sold from the Bell Creek Property. Ridgeline NV can reduce the 3% NSR production royalty by: (a) exercising the Bell Creek Option to Purchase the Bell Creek Property and reducing the NSR production royalty to 1.5%, or (b) buy down up to 1% of the NSR production royalty at any time during the Bell Creek Primary Term for \$6,000,000 (or \$3,000,000 per each 0.5%). Ridgeline NV will also pay the Lessor a 1% production royalty for valuable minerals extracted, produced and sold from properties in the area of interest of one mile from any boundary of the Bell Creek Property (the "Bell Creek AOI Royalty").

During the term of the Bell Creek Mining Lease, regardless of whether production is occurring on the Bell Creek Property, unless Ridgeline NV exercises the Bell Creek Option to Purchase or terminates the Bell Creek Mining Lease, Ridgeline must pay the Lessor the following AMR payments on or before each anniversary of the effective date over the term of the Bell Creek Mining Lease:

- \$20,000 on the first anniversary (paid);
- \$25,000 on the second anniversary;
- \$30,000 on the third anniversary;
- \$35,000 on the fourth anniversary;
- \$40,000 on the fifth anniversary;
- \$45,000 on the sixth anniversary;
- \$50,000 on the seventh anniversary; and
- \$75,000 on the eighth anniversary and each subsequent anniversary date.

All AMR payments will be offset against the NSR production royalty and the Bell Creek AOI Royalty.

c) Swift and Selena Projects, Nevada, United States

Swift (the "Swift Project"), is a Carlin-type gold exploration project within the prolific Cortez district of the Battle Mountain – Eureka Trend in Lander County, Nevada. The project covers an area of approximately 12,220 contiguous acres (50 km²) and is a mix of 471 unpatented BLM administered lode claims (8,520 acres) and private "fee" lands (3,700 acres). The project has seen limited historic exploration and is located approximately 7 km to the northwest and directly on-strike of NGM's Gold Acres, Pipeline, Cortez Hills and Goldrush deposits.

On April 10, 2019, the Company entered into the Swift and Selena Option Agreement to earn a 100% interest in the Swift property comprised of a mix of 471 unpatented BLM administered federal lode claims and 3,700 acres of federal fee lands covering approximately 12,220 acres located in Lander County, Nevada (the "Swift Property") and the Selena property comprised of 311 unpatented BLM administered contiguous federal lode claims covering approximately 6,282 acres located in White Pine County, Nevada. On September 11, 2020, the Company exercised its option under the Swift and Selena Option Agreement and acquired its 100% interest in the Swift Property and the Selena Property, for which the Company has been the operator.

The Swift and Selena projects are subject to a 3.25% production royalty. The Company can purchase up to 1% of the production royalty (leaving 2.25%) for \$3,000,000 in the first 8 years of the Swift and Selena Option Agreement. All AMR payments will be offset against 70% of the production royalty payments as they become due.

Marvel Property

In October 2019, the Company, entered into a mining lease ("Swift Mining Lease") with Marvel for certain mineral lands and unpatented mining claims located in Lander County, Nevada (the "Marvel Property"). The Marvel Property is part of the Swift Project.

Notes to Condensed Consolidated Interim Financial Statements

For the three months ended March 31, 2021 and 2020 (Unaudited)

(amounts expressed in United States dollars, except per share amounts and where indicated)

The primary term of the Swift Mining Lease will be 10 years from the effective date (the "Primary Term"), during which Ridgeline NV has an option and right to: (a) purchase all of Marvel's right, title and interest in the Marvel Property for a purchase price of \$10,000,000, subject to Marvel's reservation of a production royalty of 1.5% of the net smelter returns from the production of valuable minerals (the "Option to Purchase"); or (b) extend the Swift Mining Lease for an additional 15 years (the "Option to Extend Lease") for a payment of \$100,000. Thereafter Ridgeline has the option to further extend the Swift Mining Lease for additional one-year periods for certain cash payments.

The Company must incur \$175,000 of exploration costs during the first two years and an additional \$375,000 in the following three years. Marvel will retain a 3% NSR production royalty on the Marvel Property during the term of the Swift Mining Lease from the sale of any valuable minerals extracted, produced and sold from the Marvel Property. Ridgeline NV can reduce the 3% NSR production royalty by: (a) exercising its Option to Purchase the Marvel Property and reducing the NSR royalty to 1.5%, or (b) buy down up to 1% of the NSR production royalty at any time during the Primary Term for \$6,000,000 (or \$3,000,000 per each 0.5%). Ridgeline NV will also pay Marvel a 1% production royalty for valuable minerals extracted, produced and sold from properties in the area of interest of one mile from any boundary of the Marvel Property (the "AOI Royalty").

During the term of the Swift Mining Lease, regardless of whether production is occurring on the Marvel Property, unless Ridgeline NV exercises its Option to Purchase or terminates the Swift Mining Lease, Ridgeline must pay Marvel the following AMR payments on or before each anniversary of the effective date over the term of the Swift Mining Lease:

- \$20,000 on the first anniversary (paid in October 2020);
- \$25,000 on the second anniversary;
- \$30,000 on the third anniversary;
- \$35,000 on the fourth anniversary;
- \$40,000 on the fifth anniversary;
- \$45,000 on the sixth anniversary;
- \$50,000 on the seventh anniversary; and
- \$75,000 on the eighth anniversary and each subsequent anniversary date.

All AMR payments will be offset against the NSR royalty and the AOI Royalty.

The Company's authorized share capital consists of unlimited common shares without par value. At March 31, 2021, the Company had 48,128,616 common shares issued and outstanding (December 31, 2020 – 48,128,616).

b) Share options

The Company provides share-based compensation to its directors, officers, employees, and consultants through grants of share options.

Notes to Condensed Consolidated Interim Financial Statements

For the three months ended March 31, 2021 and 2020 (Unaudited)

(amounts expressed in United States dollars, except per share amounts and where indicated)

The Company has adopted a stock option plan (the "Plan") to grant share options to directors, officers, employees and consultants to acquire up to 10% of the issued and outstanding shares of the Company. Vesting is determined at the discretion of the Board of Directors.

The Company uses the Black-Scholes option pricing model to determine the fair value of share options granted. For employees, the compensation expense is amortized on a graded vesting basis over the requisite service period which approximates the vesting period. Compensation expense for share options granted to non-employees is recognized over the contract services period or, if none exists, from the date of grant until the options vest.

The Company uses historical data to estimate option exercise, forfeiture and employee termination within the valuation model. The risk-free interest rate is based on a treasury instrument whose term is consistent with the expected term of the share options. The Company has not paid and does not anticipate paying dividends on its common shares and, therefore, the expected dividend yield is assumed to be zero. Companies are required to utilize an estimated forfeiture rate when calculating the compensation expense for the reporting period. Based on the best estimate, management applied the estimated forfeiture rate of Nil in determining the compensation expense recorded in the accompanying Condensed Consolidated Interim Statements of Comprehensive Loss.

d) Deferred share units ("DSU")

DSUs are granted to the Company's directors and officers as a part of compensation under the terms of the Company's deferred share units plan (the "DSU Plan"). Each DSU entitles the participant to receive the value of one common share of the Company (a "Common Share"). The maximum number of awards of DSU's and all other security based compensation arrangements shall not exceed 10% of the Company's outstanding shares.

Participants are entitled to the value of the Common Share upon termination of their service. In accordance to the DSU Plan, upon each vesting date the Company shall decide, at its sole discretion whether participants receive (a) the issuance of Common Shares equal to the number of DSUs vesting, or (b) a cash payment equal to the number of vested DSUs multiplied by the fair market value of a Common Share, calculated as the closing price of the Common Shares on the TSX-V for the trading day immediately preceding such payment date; or (c) a combination of (a) and (b).

At March 31, 2021, the following DSUs were outstanding:

9 Financial instruments

a) Fair value classification of financial instruments

The fair value hierarchy establishes three levels to classify the inputs to valuation techniques used to measure fair value. Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities. Level 2 inputs are other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (prices) or indirectly (derived from prices). Level 3 inputs are for the assets or liabilities that are not based on observable market data (unobservable inputs).

The Company's financial instruments consist of cash and cash equivalents, restricted cash, receivables, notes receivable, accounts payable and accrued liabilities and lease liability.

The carrying values of cash and cash equivalent, restricted cash, receivables, notes receivable, accounts payable and accrued liabilities and lease liability approximate their fair value due to their short terms to maturity.

The following tables summarize the classification and carrying values of the Company's financial instruments at March 31, 2021:

		FVTPL		ed cost ancial assets)		rtized cost (financial liabilities)		Total
