Notes to Condensed Consolidated Interim Financial Statements

For the three and nine months ended September 30, 2022 (Unaudited)

(amounts expressed in United States dollars, except per share amounts and where indicated)

1 Nature of operations

Nature of operations

Ridgeline Minerals Corp. together with its subsidiaries (collectively referred to as the “Company” or “Ridgeline”), is focused on the exploration of mineral property interests in the states of Nevada and Idaho, United States.

On August 17, 2020, the Company completed an initial public offering (“IPO”) and the Company’s common shares commenced trading on the TSX Venture Exchange (the “TSX-V”) under the symbol “RDG”. The Company’s common shares also trade in the United States on the Over-the-Counter OTCQB Venture Market under the trading symbol “RDGMF”. The Company was incorporated on March 18, 2019 in British Columbia, Canada. The Company’s registered office is at 355-1632 Dickson Avenue, Kelowna, BC, V1Y 7T2, Canada.

All amounts are expressed in United States dollars, except for certain amounts denoted in Canadian dollars (“C\$”).

The Company has not yet determined whether its exploration and evaluation assets contain mineral reserves that are economically recoverable. The recoverability of the amounts shown for exploration and evaluation assets is dependent upon the existence of economically recoverable reserves, the ability of the Company to obtain necessary financing to complete the development of those reserves and upon future profitable production. To date, the Company has not earned any revenues and is considered to be in the exploration stage.

Going concern

These condensed consolidated interim financial statements have been prepared on the basis of accounting principles applicable to a going concern, which assumes that the Company will continue in operation for the foreseeable future and will be able to realize its assets and discharge its liabilities in the normal course of operations.

The Company has not generated revenues from its operations to date. As at September 30, 2022, the Company has accumulated net losses of \$3,358,522 since inception and has working capital of \$2,045,048. The operations of the Company have primarily been funded by the issuance of common shares. The Company will require additional funding to maintain its operations for the upcoming fiscal year. These condensed consolidated interim financial statements do not include any adjustments relating to the recoverability and classification of recorded asset amounts and classification of liabilities that might be necessary should the Company be unable to continue in existence. These material uncertainties may cast significant doubt upon the Company’s ability to continue as a going concern.

If the going concern assumption was not appropriate for these condensed consolidated interim financial statements, then adjustments may be necessary to the carrying values of assets and liabilities, the reported expenses and the statement of financial position classifications used. Such adjustments could be material.

2 Basis of presentation

The Company prepares its condensed consolidated interim financial statements in accordance with International Accounting Standards 34, Interim Financial Reporting (“IAS 34”), under International Financial Reporting Standards (“IFRS”) as issued by the International Accounting Standards Board (“IASB”) and interpretation of the International Reporting Interpretations Committee (“IFRIC”). These should be read in conjunction with the Company’s annual audited consolidated financial statements as at and for the year ended December 31, 2021 (“annual financial statements”). The accounting policies and critical estimates and judgements applied by the Company in these condensed consolidated interim financial statements are the same as those applied in the Company’s annual financial statements, unless otherwise stated.

These condensed consolidated interim financial statements of the Company have been prepared on an accrual basis and are based on historical costs, except for financial instruments measured at fair value or amortized cost.

The Board of Directors of the Company approved these condensed consolidated interim financial statements and authorized them for issue on November 29, 2022.

Ridgeline Minerals Corp.

Notes to Condensed Consolidated Interim Financial Statements

For the three and nine months ended September 30, 2022 (Unaudited)

(amounts expressed in United States dollars, except per share amounts and where indicated)

Basis of consolidation

These condensed consolidated interim financial statements include the accounts of the Company and its wholly owned subsidiaries, being Ridgeline Minerals Corporation (“Ridgeline NV”), Ridgeline Silver Corporation and Ridgeline Exploration Corporation.

All significant intercompany accounts and transactions between the Company and its subsidiary have been eliminated upon consolidation.

3 Exploration and evaluation assets

Title to exploration and evaluation assets involves certain inherent risks due to the difficulties of determining the validity of certain claims as well as the potential for problems arising from the frequently ambiguous conveyancing history characteristics of many mineral properties. The Company has investigated title to its mineral properties and, to the best of its knowledge, titles to the mineral property assets remains in good standing.

a) Swift and Selena Projects, Nevada, United States

On April 10, 2019, the Company and Ridgeline NV entered into the Swift and Selena Option Agreement with Bronco Creek Exploration Inc. ("Bronco"), a subsidiary of EMX Royalty Corporation ("EMX") (EMX together with Bronco, the "EMX Group"). Pursuant to the Swift and Selena Option Agreement, the Company has the option to earn a 100% interest in the Swift property and the Selena property by:

- Paying \$20,000 to the EMX Group (which amount has been paid);
- Paying AMR payments of \$10,000 per year starting on the second anniversary of the effective date and on each anniversary thereafter increasing by \$5,000 per year, up to a maximum of \$75,000 per year;
- Pay milestone payments totaling \$2,200,000 for each of the Swift and Selena Projects in cash or common shares, at the discretion of Ridgeline NV, dependent on the Swift and Selena Projects reaching certain milestones;
- Issue that number of common shares to give the EMX Group a 9.9% interest in the issued share capital of the Company on the date of issue. In May 2019 the Company issued 2,077,718 common shares at a value of C\$0.12 per common share for C\$249,326; and
- Issuing additional shares to the EMX Group (the “Anti-Dilution Right”) to maintain its 9.9% interest (on a non-diluted basis and on a \$2,500,000 post-money basis) until the earlier of (i) the Company completing the Minimum Capital Raise, and (ii) three years from the effective date of the Swift and Selena Option Agreement (the “Anti-Dilution Period”).

The term of the option was the earlier of three years and successful completion of the IPO. The Company was also required to complete the Minimum Capital Raise within three years of the effective date of the Swift and Selena Option Agreement, otherwise Bronco will have the option to terminate the Swift and Selena Option Agreement. Conditions precedent to exercising the option included the completion of the Minimum Capital Raise and completion of the IPO. The Company confirmed with Bronco that the Minimum Capital Raise has been satisfied.

On September 11, 2020, the Company exercised its option under the Swift and Selena Option Agreement and acquired its 100% interest in the Swift property and the Selena property, for which the Company has been the operator.

The Company granted to the EMX Group, effective from the end of the anti-dilution period, for as long as the EMX Group maintains at least a 5% equity ownership in the Company, a pre-emptive right to purchase for cash up to that proportion of any new common shares that the Company may issue for the same price and on the same terms as the new common shares to enable the EMX Group to maintain its percentage ownership that it holds immediately prior to the issuance of such new common shares. This right will expire once the EMX Group holds less than 5% of the issued and outstanding common shares of the Company.

Pursuant to the Swift and Selena Option Agreement, upon exercise of the option, the EMX Group retained a 3.25% production royalty on each of the Swift property and the Selena property. The Company can purchase up to 1% of the production royalty (leaving 2.25%) for \$3,000,000 in the first 8 years of the Swift and Selena Option Agreement. All AMR payments will be offset against 70% of the production royalty payments as they become due.

Ridgeline Minerals Corp.

Notes to Condensed Consolidated Interim Financial Statements

For the three and nine months ended September 30, 2022 (Unaudited)

(amounts expressed in United States dollars, except per share amounts and where indicated)

Pursuant to the Swift and Selena Option Agreement, the Company issued 2,077,718 shares to EMX at a price of C\$0.12 per share for a value of C\$249,326 on May 4, 2019; 785,569 shares to EMX at a price of C\$0.22 per share with a value of C\$172,825 on December 20, 2019 and 113,681 shares to EMX at a price of C\$0.22 per share with a value of C\$25,010 on February 26, 2020. Upon issuance of the 113,681 shares on February 20, 2020, the Company satisfied its obligations under the Anti-Dilution Right, as the Company completed the Minimum Capital Raise. As such, the Anti-Dilution Right has been terminated.

Nevada Gold Mines Corporation Earn-In-Agreement

On September 22, 2021, the Company announced that it had entered into a transaction with Nevada Gold Mines Corporation ("NGM") (the "NGM Earn-In-Agreement") pursuant to which NGM can acquire an interest in the Company's Swift Project. NGM can incur a minimum of \$20 million (of which \$4 million is guaranteed) in qualifying work expenditures over an initial five-year term to earn an initial 60% interest in Swift and will have further options to increase its interest to a total 75% interest. NGM assumed operatorship of the project immediately.

- initial earn-in option: NGM will assume operatorship of the project and can earn-in to a 60% interest in the project by incurring a minimum of \$20 million in qualifying work expenditures over five years, including.
 - \$4 million in guaranteed work expenditures before December 31, 2023.
 - \$16 million in work expenditures and preparation of a technical report in compliance with the requirements of National Instrument 43-101 before December 31, 2026.
 - NGM and Ridgeline will each elect two representatives to a Swift technical steering committee, which will meet quarterly to review budgets and exploration progress.
- Second Earn-In Option: NGM will retain a one-time option to earn an additional 10% interest in the project by sole-funding an additional \$10 million in work expenditures before December 31, 2029.

As part of the NGM Earn-In-Agreement, NGM reimbursed a total of \$372,762 to Ridgeline as consideration for work expenditures at Swift. This amount was received in October 2021 and recorded as a recovery of exploration and evaluation assets of the Swift Property.

Marvel Property

In October 2019, the Company, through Ridgeline NV, entered into a mining lease ("Swift Mining Lease") with Marvel for certain mineral lands and unpatented mining claims located in Lander County, Nevada (the "Marvel Property"). The Marvel Property is part of the Swift Project.

As consideration for the first year rental payment, the Company will pay Marvel \$17,000 (paid), reimburse Marvel for the annual maintenance/holding fee obligation for the claims including an additional 5% of such costs and issuing Marvel 50,000 common shares (issued at a value of C\$11,000) in December 2019.

The primary term of the Swift Mining Lease will be 10 years from the effective date (the "Primary Term"), during which Ridgeline NV has an option and right to: (a) purchase all of Marvel's right, title and interest in the Marvel Property for a purchase price of \$10,000,000, subject to Marvel's reservation of a production royalty of 1.5% of the net smelter returns from the production of valuable minerals (the "Option to Purchase"); or (b) extend the Swift Mining Lease for an additional 15 years (the "Option to Extend Lease") for a payment of \$100,000. Thereafter Ridgeline has the option to further extend the Swift Mining Lease for additional one-year periods for certain cash payments.

The Company must incur \$175,000 of exploration costs during the first two years and an additional \$375,000 in the following three years. Marvel will retain a 3% NSR production royalty on the Marvel Property during the term of the Swift Mining Lease from the sale of any valuable minerals extracted, produced and sold from the Marvel Property. Ridgeline NV can reduce the 3% NSR production royalty by: (a) exercising its Option to Purchase the Marvel Property and reducing the NSR royalty to 1.5%, or (b) buy down up to 1% of the NSR production royalty at any time during the Primary Term for \$6,000,000 (or \$3,000,000 per each 0.5%). Ridgeline NV will also pay Marvel a 1% production royalty for valuable minerals extracted, produced and sold from properties in the area of interest of one mile from any boundary of the Marvel Property (the "AOI Royalty").

Ridgeline Minerals Corp.

Notes to Condensed Consolidated Interim Financial Statements

For the three and nine months ended September 30, 2022 (Unaudited)

(amounts expressed in United States dollars, except per share amounts and where indicated)

During the term of the Swift Mining Lease, regardless of whether production is occurring on the Marvel Property, unless Ridgeline NV exercises its Option to Purchase or terminates the Swift Mining Lease, Ridgeline must pay Marvel the following AMR payments on or before each anniversary of the effective date over the term of the Swift Mining Lease:

- \$20,000 on the first anniversary (paid);
- \$25,000 on the second anniversary (paid);
- \$30,000 on the third anniversary;
- \$35,000 on the fourth anniversary;
- \$40,000 on the fifth anniversary;
- \$45,000 on the sixth anniversary;
- \$50,000 on the seventh anniversary; and
- \$75,000 on the eighth anniversary and each subsequent anniversary date.

All AMR payments will be offset against the NSR royalty and the AOI Royalty.

b) **Carlin-East Project, Nevada, United States**

On April 10, 2019, the Company, through Ridgeline NV, entered into the Carlin-East Option Agreement with Carlin East LLC ("CEL") to acquire a 100% interest in 243 unpatented claims, which comprise part of the Carlin Trend in northern Nevada (the "Carlin-East Project") for cash and share consideration as further set forth below:

- Paying \$53,000 to CEL (which amount has been paid);
- Paying annual advance minimum royalty ("AMR") payments of \$5,000 per year on or prior to each anniversary of the effective date of the Carlin-East Option Agreement, starting on the second anniversary;
- Paying milestone payments totaling \$2,200,000 in cash or shares, at the discretion of Ridgeline NV, dependent on the Carlin-East Project reaching certain milestones, such milestones including the issuance of a preliminary economic analysis, the earlier of the issuance of a pre-feasibility study, and the date that the Board of Directors proceeds with development of a mine and associated facilities on the Carlin-East Project; and
- Paying the obligations under the lease and option agreement between CEL and the underlying landowner Genesis Gold Corporation ("Genesis") dated effective August 8, 2017 (the "Lease and Option Agreement") to the extent coming due during the option period.

The term of the option was the earlier of three years and successful completion of the IPO, during which time, the Company was required to satisfy certain conditions precedent or CEL will have the option to terminate the Carlin-East Option Agreement (the "Option Period"). The conditions precedent included: (i) completion of the IPO; (ii) satisfaction of any AMR and milestone payments that become due prior to the end of the Option Period; and (iii) the raising of a minimum of \$2,500,000 for exploration on the Company's projects (the "Minimum Capital Raise"). The Company previously confirmed with CEL that the Minimum Capital Raise condition has been satisfied.

On September 11, 2020, the Company exercised its option under the Carlin-East Option Agreement and acquired its 100% interest in the 243 federal unpatented claims which comprise part of the Carlin-East Project, for which the Company has been the operator.

Pursuant to the Carlin-East Option Agreement, upon exercise of the option, CEL was granted a 3.25% production royalty on the Carlin-East Project and is eligible to receive AMR payments until commercial production is announced. The Company can purchase up to 1% of the production royalty (leaving 2.25%) for \$3,000,000 in the first eight years of the Carlin-East Option Agreement. All AMR payments will be offset against 70% of the production royalty payments as they become due.

The underlying Lease and Option Agreement with Genesis has a term of 99 years unless sooner terminated or the option is exercised, with annual advance royalty payments as follows: \$10,000 on or before August 8, 2018 (paid); \$10,000 on or before August 8, 2019 (paid); \$20,000 on or before August 8, 2020 (paid); \$30,000 on or before August 8, 2021 (paid); \$40,000 on or before August 8, 2022 (paid); \$60,000 on or before August 8, 2023; \$80,000 on or before August 8, 2024 and \$100,000 per year on the eighth anniversary and thereafter. These advance royalty payments will cease upon commencement of commercial production. The underlying option to acquire a 100% interest in the Carlin-East Project pursuant to the Lease and Option Agreement can be exercised prior to commercial production for \$1,000,000 (the "Purchase Price"). Genesis is entitled to a 0.5% production royalty with any previous advance royalty payments being deducted from production royalty

amounts owing. This 0.5% production royalty and all financial obligations of CEL are extinguished upon the exercise of the option to purchase through payment of the Purchase Price provided that the option to purchase is exercised prior to the start of commercial production.

Bell Creek Property, Nevada, United States

On February 25, 2020, the Company, through Ridgeline NV, entered into the Bell Creek Mining Lease with Marvel-Jenkins Ranch, LLC ("Marvel") and Marvel Minerals, LLC (together with Marvel, the "Lessor") to lease certain mineral rights in fee lands located in Elko County, Nevada (the "Bell Creek Property"). The Bell Creek Property is part of the Carlin-East Project.

As consideration for the first year lease payment, the Company paid Marvel \$15,000 and issued Marvel 15,000 common shares (issued at a value of C\$3,300).

The primary term of the Bell Creek Mining Lease will be 10 years from the effective date (the "Bell Creek Primary Term"), during which Ridgeline NV has an option and right to: (a) purchase all of the Lessor's right, title and interest in the Bell Creek Property for a purchase price of \$10,000,000, subject to the Lessor's reservation of a production royalty of 1.5% of the net smelter returns ("NSR") from the production of valuable minerals (the "Bell Creek Option to Purchase"); or (b) extend the Bell Creek Mining Lease for an additional 15 years (the "Bell Creek Option to Extend Lease") for a payment of \$100,000. The Bell Creek Option to Purchase and the Bell Creek Option to Extend Lease are exercisable up to 90 days prior to the expiration of the Bell Creek Primary Term. Thereafter Ridgeline has the option to further extend the Bell Creek Mining Lease for additional one-year periods for certain cash payments.

The Company must incur \$250,000 of exploration costs during the first five years of the Bell Creek Mining Lease. The Lessor will retain a 3% NSR production royalty on the Bell Creek Property during the term of the Bell Creek Mining Lease from the sale of any valuable minerals extracted, produced and sold from the Bell Creek Property. Ridgeline NV can reduce the 3% NSR production royalty by: (a) exercising the Bell Creek Option to Purchase the Bell Creek Property and reducing the NSR production royalty to 1.5%, or (b) buy down up to 1% of the NSR production royalty at any time during the Bell Creek Primary Term for \$6,000,000 (or \$3,000,000 per each 0.5%). Ridgeline NV will also pay the Lessor a 1% production royalty for valuable minerals extracted, produced and sold from properties in the area of interest of one mile from any boundary of the Bell Creek Property (the "Bell Creek AOI Royalty").

During the term of the Bell Creek Mining Lease, regardless of whether production is occurring on the Bell Creek Property, unless Ridgeline NV exercises the Bell Creek Option to Purchase or terminates the Bell Creek Mining Lease, Ridgeline must pay the Lessor the following AMR payments on or before each anniversary of the effective date over the term of the Bell Creek Mining Lease:

- \$20,000 on the first anniversary (paid);
- \$25,000 on the second anniversary (paid);
- \$30,000 on the third anniversary;
- \$35,000 on the fourth anniversary;
- \$40,000 on the fifth anniversary;
- \$45,000 on the sixth anniversary;
- \$50,000 on the seventh anniversary; and
- \$75,000 on the eighth anniversary and each subsequent anniversary date.

All AMR payments will be offset against the NSR production royalty and the Bell Creek AOI Royalty.

c) **Robber Gulch, Idaho, United States**

On January 26, 2022, the Company entered into an exploration earn-in option agreement (the "Agreement") to acquire a 100% interest in the Robber Gulch oxide gold project ("Robber Gulch or "The Project") from Bronco Creek Exploration, a wholly-owned subsidiary of EMX. Pursuant to the Agreement, Ridgeline may earn a 100% interest in the Project by:

- Making the initial execution payment of \$50,000 and all option payments totaling \$750,000 over a five-year period (of which up to \$350,000 may be payable in common shares of the Company); and
- Delivering 150,000 common shares in Ridgeline to EMX by the second anniversary of the Agreement; and
- Completing \$650,000 in exploration expenditures before the fifth anniversary of the Agreement.

(amounts expressed in United States dollars, except per share amounts and where indicated)

Upon closing of the exploration earn-in option agreement, EMX will retain a 3.25% net smelter return (“NSR”) royalty on the Project. Ridgeline can reduce the NSR royalty to 2.25% by:

- Completing an initial 0.5% royalty buyback with a payment of \$1,500,000 to EMX prior to the third anniversary of the option exercise (year 8); and
- Paying \$2,000,000 to EMX anytime thereafter for the remaining 0.5%.
 - Ridgeline will make Annual Advance Royalty payments of \$50,000 that increase to \$75,000 upon completion of a Preliminary Economic Assessment or Order of Magnitude Study with payments to cease upon commencement of commercial production.
- Ridgeline will make Project milestone payments (payable in cash or, at the election of the Company, in common shares) consisting of:
 - a. \$250,000 upon completion of a Preliminary Economic Assessment,
 - b. \$500,000 upon completion of the earlier of a Prefeasibility or Feasibility Study, and
 - c. \$1,000,000 upon a positive development decision.

6 Share capital

a) Common shares

The Company's authorized share capital consists of unlimited common shares without par value. At September 30, 2022, the Company had 68,469,449 common shares issued and outstanding (December 31, 2021 – 55,678,616) and 4,842,300 common shares (2021 – 4,842,300) held in escrow.

During the nine months ended September 30, 2022, 58,333 vested Restricted Share Units with grant date fair value of C\$0.36 were redeemed for 58,333 common shares of the Company.

b) Issued share capital

On September 29, 2022, the Company closed a non-brokered private placement ("Private Placement") consisting of 12,732,500 units ("Unit") at a price of \$0.20 per Unit which raised gross proceeds of C\$2,546,500. Each Unit consists of one common share of the Company (a "Share") and one-half of one non-transferable common share purchase warrant (each whole warrant, a "Warrant"). Each Warrant can be exercisable to acquire one Share at a price of C\$0.30 until September 29, 2024. The Company paid a finder's fee of C\$45,900. The Warrants were determined to have a value of nil using the residual value method.

Insiders of the Company participated in the offering for an aggregate amount of approximately C\$25,500.

c) Share options

The Company provides share-based compensation to its directors, officers, employees, and consultants through grants of share options.

Ridgeline Minerals Corp.

Notes to Condensed Consolidated Interim Financial Statements

For the three and nine months ended September 30, 2022 (Unaudited)

(amounts expressed in United States dollars, except per share amounts and where indicated)

The Company has adopted a stock option plan (the “Plan”) to grant share options to directors, officers, employees and consultants to acquire up to 10% of the issued and outstanding shares of the Company. Vesting is determined at the discretion of the Board of Directors.

The Company uses the Black-Scholes option pricing model to determine the fair value of share options granted. For employees, the compensation expense is amortized on a graded vesting basis over the requisite service period which approximates the vesting period. Compensation expense for share options granted to non-employees is recognized over the contract services period or, if none exists, from the date of grant until the options vest.

The Company uses historical data to estimate option exercise, forfeiture and employee termination within the valuation model. The risk-free interest rate is based on a treasury instrument whose term is consistent with the expected term of the share options. The Company has not paid and does not anticipate paying dividends on its common shares and, therefore, the expected dividend yield is assumed to be zero. Companies are required to utilize an estimated forfeiture rate when calculating the compensation expense for the reporting period. Based on the best estimate, management applied the estimated forfeiture rate of Nil in determining the compensation expense recorded in the accompanying Condensed Consolidated Interim Statements of Comprehensive Loss.

6,366,250	0.30	April 2024
16,211,125		

e) Deferred share units (“DSU”)

DSUs are granted to the Company’s directors and officers as a part of compensation under the terms of the Company’s deferred share units plan (the “DSU Plan”). Each DSU entitles the participant to receive the value of one common share of the Company (a “Common Share”). The maximum number of awards of DSU’s and all other security based compensation arrangements shall not exceed 10% of the Company’s outstanding shares.

Participants are entitled to the value of the Common Share upon termination of their service. In accordance to the DSU Plan, upon each vesting date the Company shall decide, at its sole discretion whether participants receive (a) the issuance of Common Shares equal to the number of DSUs vesting, or (b) a cash payment equal to the number of vested DSUs multiplied by the fair market value of a Common Share, calculated as the closing price of the Common Shares on the TSX-V for the trading day immediately preceding such payment date; or (c) a combination of (a) and (b).

On the grant date of DSUs, the Company determines whether it has a present obligation to settle in cash. If the Company has a present obligation to settle in cash, the DSUs are accounted for as liabilities, with the fair value remeasured at the end of each reporting period and at the date of settlement, with any changes in fair value recognized in profit or loss for the period. The Company has a present obligation to settle in cash if the Company has a past practice or a stated policy of settling in cash, or generally settles in cash whenever the counterparty asks for cash settlement. If no such obligation exists, DSUs are accounted for as equity settled share-based payments and are valued using the share price of the Common Share on grant date. Since the Company controls the settlement, the DSU’s are considered equity settled.

At September 30, 2022, the following DSUs were outstanding:

Number of DSUs	Weighted average grant date fair value per DSU (C\$)
570,000	0.36
300,000	0.37
870,000	

f) Restricted share units (“RSU”)

RSUs are granted to the Company’s directors, officers, and employees as a part of compensation under the terms of the Company’s restricted share units plan (the “RSU Plan”). Each RSU entitles the participant to receive the value of one Common Share. The maximum number of awards of RSU’s and all other security based compensation arrangements shall not exceed 10% of the Company’s outstanding shares.

The number of RSUs awarded and underlying vesting conditions are determined by the Board of Directors in its discretion. In accordance with the RSU Plan, upon each vesting date the Company shall decide, at its sole discretion whether participants receive (a) the issuance of Common Shares equal to the number of RSUs vesting, or (b) a cash payment equal to the number of vested RSUs multiplied by the fair market value of a Common Share, calculated as the closing price of the Common Shares on the TSX-V for the trading day immediately preceding such payment date; or (c) a combination of (a) and (b).

On the grant date of RSUs, the Company determines whether it has a present obligation to settle in cash. If the Company has a present obligation to settle in cash, the RSUs are accounted for as liabilities, with the fair value remeasured at the end of

10 Financial instruments

a) Fair value classification of financial instruments

The fair value hierarchy establishes three levels to classify the inputs to valuation techniques used to measure fair value. Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities. Level 2 inputs are other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (prices) or indirectly (derived from prices). Level 3 inputs are for the assets or liabilities that are not based on observable market data (unobservable inputs).

The Company's financial instruments consist of cash, restricted cash, receivables, accounts payable and accrued liabilities, loans payable and lease liability.

The carrying values of cash, restricted cash, receivables, accounts payable and accrued liabilities, loans payable and lease liability approximate their fair value due to their short terms to maturity or market rates of interest.

The following tables summarize the classification and carrying values of the Company's financial instruments at September 30, 2022:

	FVTPL	Amortized cost (financial assets)	Amortized cost (financial liabilities)	Total
